

234.005-1 Competition.

A contract that is initially awarded from the competitive selection of a proposal resulting from a broad agency announcement may contain a contract line item or contract option for the provision of advanced component development, prototype, or initial production of technology developed under the contract or the delivery of initial or additional items if the item or a prototype thereof is created as the result of work performed under the contract only when it adheres to the following limitations:

(1) The contract line item or contract option shall be limited to the minimal amount of initial or additional prototype items that will allow for timely competitive solicitation and award of a follow-on development or production contract for those items.

(2) The term of the contract line item or contract option shall be for not more than 2 years.

(3) The dollar value of the work to be performed pursuant to the contract line item or contract option shall not exceed \$100 million in fiscal year 2017 constant dollars. (10 U.S.C. 2302e)
